Evaluation Criteria for Exhibitor Students

Poster Session MoReMED XII Edition

Evaluation Criteria Table	Points
Expository correctness	1-10
Communicative effectiveness	1-10
Quality of the Poster	1-10
Total	**4-40**

Notes on criteria:

The **expository correctness** evaluates the ability to expose with precise and punctual terminology, without inaccuracies, thus showing mastery of the topic.

The **communicative effectiveness** evaluates the ability to transmit in a simple way information that is complex in the abstract or in the poster, to ensure that listeners keep their attention high and can immediately learn useful notions. In other words, the oral presentation should convey the concepts and key points of the work, avoiding an excessive number of acronyms, undeveloped acronyms, specific names of genes, markers and molecules. This criterion also includes the use of communicative techniques and schemes, as well as graphic tools suitable for correct scientific dissemination in the digital field.

The **quality of the Poster** evaluates the ability to produce a poster pleasing to the eye, schematic and immediate, easy to understand.
